Background

ActionAid Ghana (AAG) has been working tirelessly in Ghana since 1990 as a national Non-Governmental Organization (NGO) and the first Southern Affiliate programme of ActionAid International Federation. Their approach is centred around empowering the most vulnerable individuals and communities, including the poor, excluded, and marginalized, to demand accountability and exercise their rights.

ActionAid is a catalyst for lasting impact. We focus on the most disadvantaged communities across 11 regions: Upper East, Upper West, Northeast, Savannah, Northern, Bono East, Bono, Ahafo, Oti, Volta, and Greater Accra.

The Greater Accra Regional Programme is desirous of service providers to supply Computers and their accessories to be donated to a basic school within the Ga South Municipal to facilitate the teaching and learning of ICT for children in deprived communities of the Municipal.
